57 % Germany / 43 % Export

LOGISTICS

NO MATTER HOW LONG THE DISTANCE, WE WILL BE THERE

Harte Peat deal with all the major shipping lines across the world and are constantly pricing around for the best

rates for its customers. The company also have its own in-house transport team to deliver its containers to the port.

PRODUCT QUALITY

CONSTANT CONTROLS, GUARANTEE CONSTANT QUALITY

Their strict quality control standards are overseen and approved by Bord Bia. With a fully integrated automated production facility Harte Peat has full control over the entire process, from gathering the raw material, to mixing, bagging, packing and shipping of the final mushroom casing product.

This allows Harte Peat to exercise strict and exacting standards on production quality and costs, to ensure that you, our customers, get the best possible product for your mushroom growing at the best price.

We oversee all quality control aspects at the Mushroom Casing Post Production Plant with independently verified adherence on all mushroom casing matters.

RESEARCH

DISCOVERING NEW OPPORTUNITIES THROUGH RESEARCH

Harte Peat and Floragard are constantly striving to innovate and meet the demands of an evolving market while ensuring only High-Quality Raw Materials are being used for the edible Horticultural food market.

These High-Quality Raw Materials go through strict hygiene processes before being introduced to possible future mixes. These mixes are then trialed in-house until they have met all the necessary standards. Mixes are adapted to achieve acceptable yields for our customers.

Some of our reduced blend mixes have been released onto the market and we are continuing to strive to achieve 100% peat free casing while maintaining current yields.

Harte Peat commits to work with the industry to give it a sustainable future while complying with all environmental legislation as a minimum of environmental performance.

PRODUCT

GET THE MOST OUT OF YOUR CROPS WITH OUR PRODUCTS

APPLICATION:

The casing soil contains valuable peat qualities with a very high water capacity and a very high pH-value which is ideally adjusted to the requirements of the mushrooms.

These ingredients provide a safe cultivation and a fast and successful development of fruiting bodies. The casing soil is ready-to-use and can be brought out directly, mechanically or manually.

ADVANTAGES:

Only high quality deep dug Irish peat with specialized harvesting techniques.

The soil convinces with its stable structure and high-water capacity during the whole cultivation process.

The structure and moistness of the casing soil support a beneficial microclimate for the mushrooms.

pH The pH-value of 7.2 - 7.5 (H₂O) provides and ideal development of the fruiting bodies.

A homogenously and constantly high quality.

If desired by the customer the casing soil is available in a range of moisture levels.

PACKAGING:

We can supply our customers globally with different types of mushroom casing soil and various packaging options.

Depending on the transport, we deliver loose, in bags and in big bags. We deliver our casing soil by truck or ship.

Available size:
50 L

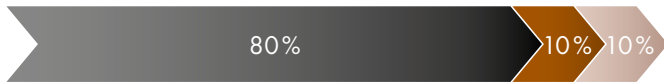

Available size:
2,5 m³

PRODUCT RANGE

OUR ORGANIC CASING SOIL ASSORTMENT

SUPER HEAVY BLEND 80/20

pH-Value (H ₂ O):	7.2 - 7.5
E.C.:	< 0.5 mS/cm
Structure:	coarse

PREMIUM HEAVY BLEND 70/30

pH-Value (H ₂ O):	7.2 - 7.5
E.C.:	< 0.5 mS/cm
Structure:	coarse

THE HEAVY BLENDS ARE USED ON PHASE 3 COMPOST FOR WHITE MUSHROOM PRODUCTION.

PREMIUM LIGHT BLEND 60/40

pH-Value (H ₂ O):	7.2 - 7.5
E.C.:	< 0.5 mS/cm
Structure:	coarse

THE PREMIUM LIGHT BLEND IS USED ON PHASE 3 BROWN MUSHROOM PRODUCTION AND PHASE 2 WHITE MUSHROOM PRODUCTION.

PREMIUM REDUCED BLEND - 30% PEAT REDUCED

pH-Value (H ₂ O):	7.2 - 7.5
E.C.:	< 0.5 mS/cm
Structure:	coarse

PREMIUM REDUCED BLEND - 50% PEAT REDUCED

pH-Value (H ₂ O):	7.2 - 7.5
E.C.:	< 0.5 mS/cm
Structure:	coarse

THE PREMIUM PEAT REDUCED BLENDS ARE USED ON PHASE 3 BROWN MUSHROOM PRODUCTION AND PHASE 2/3 WHITE MUSHROOM PRODUCTION.

ANALYSIS: Batch testing before bagging for E.coli, Listeria & Salmonella
