

TopGrinder

MANUAL FINISHING MACHINE

Q-FIN

Quality Finishing Machines

TopGrinder

The best semi-automatic machine for grinding, deburring, edge rounding and polishing metal parts.

The Q-Fin TopGrinder is a compact deburring machine suitable for various finishing applications on sheet metal parts. With the TopGrinder you can easily deburr, grind, edge round, deslag and/or polish your metal components. Working with the TopGrinder is an inexpensive way of semi-automatic deburring. With this machine achieving a high quality finish, removing sharp burrs from your laser cut parts or even polishing the surface of your products is at hand. The TopGrinder is built ergonomic, robust and is very safe by its two-buttons operation and CE marking.

TopGrinder

- **Faster and lighter than deburring by hand**
- **Metal parts can be fixated very quick**
- **Quick change from brush to grinding tool**
- **You determine the grinding pressure**
- **Easy and safe to operate**

SUITABLE FOR PROCESSING

- ✓ Stainless steel
- ✓ Aluminium
- ✓ Steel

DESCRIPTION

The TopGrinder is built ergonomically, robustly executed and especially safe because of the two-button control. This mobile deburring machine is standard equipped with a free adjustable brush speed and a vacuum system, to make sure workpieces are clamped firmly onto the work surface while you work safely. With little effort you can achieve great time savings compared to manual deburring, also because of the faster fixation of the product. Make both your operators and customers happy!

The balance arm allows you to adjust the grinding pressure to your liking, by means of the spring package, from floating to

more pressure. The dual motor is equipped with two grinding heads, enabling you to change quickly between tools. You can attach various grinding tools, from standard tools with an M14 fastening to Quick Release disc brushes delivered by Q-Fin for the various processes.

The dimensions of the work surface are 1280 x 780 mm (W x D). However, there is no maximum length to workpieces because you can fold down the side panels easily. The front panel you can flip as well making it possible to work on wider products without a problem. Not only the best looking table grinder around, also the safest one.

Optional: 2 or 4 magnets in the work surface of the TopGrinder.

TECHNICAL SPECIFICATIONS

Marking	CE
Operation	swing bar with 2-hand operation
Vacuum system	standard; 2.2 kW
Electro magnets	optional; 2 or 4
Grinding heads	2
Maximum workpiece width	780 mm / Length unlimited
Connection value machine	400 V, 50 Hz, 10 A, 6 kW
Dimensions (L x W x H)	1435 x 1100 x 1510 mm
Weight	445 kg
